ComicCraft - AI Comic Story Creator using Gemini Models

Date	29 September 2026
Team ID	SWTID-2026-3296
Project Name	ComicCraft - AI Comic Story Creator using Gemini Models
Team Size	4
Team Leader	Kamalesh P R
Team Members	JAYAKUMARAN V M, Kannan P, Naresh C

PERSONA

Name	Creative Comic Creator
Role / User Type	Non-artist, casual user, student, or storyteller who wants to create personalized comics using an easy AI-powered tool.

SAYS

• I have a creative story idea but I do not know how to turn it into a complete comic.

• I want the characters, dialogues, scenes, and illustrations to match my story idea.

• I want an easy way to preview and download the finished comic.

THINKS

• Creating a comic manually may take a lot of time and artistic skill.

• AI could help me quickly transform my prompt into a complete visual story.

• The generated panels should be consistent, engaging, and easy to understand.

DOES

• Enters a story prompt, character name, setting, tone, and preferred art style.

• Reviews the generated comic panel-by-panel and checks the story and images.

• Downloads the completed comic as a PDF for saving, sharing, or viewing offline.

FEELS

• Excited to see a simple idea become a visual comic.

• Frustrated when creating illustrations, dialogue, and page layouts manually.

• Satisfied when the generated comic matches the intended story and can be exported easily.

Customer-Centric Insight

The user needs a simple, accessible workflow that reduces the creative and technical effort required to produce a complete comic. ComicCraft addresses this by combining AI-generated story content, comic-style illustrations, panel organization, preview, and PDF export in one web application.
